JUNE 1987

## FROM THE PRESIDENT

Congratulations to Richard on a great Job of putting on our annual show. The weather was very threatening when I left home at 6:30 A. M. Saturday morning. In fact, it was raining, thundering, and lightening. Not a good day for a car show. By the time I got to Columbus, the rain had stopped, but it still looked bad. By noon, when I had to leave, there were 13 GTO's on the lot, but by that time the sun had come out and more GTO's began to show up. We ended up with over 45 GTO's at the show. Not bad for the way the day started.

About a week before the show, I received a call from Chuck Denlinger from near Indianapolis inquiring about our show. Chuck and his wife showed up with their 1964 and took a second place. I just received a letter from Chuck stating how much he enjoyed the show. With the letter was a check for his club membership. Welcome to the club Chuck. I know that we picked up several other memberships. Welcome to all new members.

Butch Leahl's Pro Stock car and 18 wheeler was an added touch of class to our show. The all black Western Cab Kenworth was a sight to see in addition to his race car (and we all thought that car restoration was an expensive hobby). Dave Gill Pontiac had a GTA on display which was nice but lacked the pizzaz of the GTO's.

One of these years, we will hold a car show with no threat of rain. We are overdue for that. Maybe that will happen over July 4th weekend. The last three Nationals that I have attended, it has rained. That couldn't happen four years in a row ..... could it?

The National Show is falling into place. Things are running smoothly. Judges and alternates have been selected, and information has been mailed to them. I talked with Mild Shornak last week about the Tech Session. Between Milt, Lars, and HO Racing Specialties, Inc., it should be a great session at the strip.

The Tech Session at the strip will consist of super tuning a GTO. Quarter mile times will be taken on the car prior to the Tech Session. The car will be taken to an area in front of the grandstands where the people will be able to watch the procedure. There will be a patch into the track's PA system so that everyone can hear. After the tuning has been completed, quarter mile times will again be taken and compared with the earlier times.

This sounds like a good "how to" session in which we will be able to see the results. Plan to attend this one. It should be interesting.

*July 1987*

Dear GTOAA National Meet Volunteer,

After many months of preparation and hard work it seems almost impossible that the 1987 GTOAA National Meet can end in just four short days. In those four days we were able to put on the biggest and best GTOAA National Meet so far. This could only be accomplished by people like you who were willing to devote your time and talents to make this meet so successful. As GTOACO National Meet Chairman, I wish to thank you for your efforts and hope that we will have the opportunity to work together in the future.

Sincerely,

Neal Blankenship  
GTOACO National Meet Chairman
