Paw Prints

April 1988

Just like every other living thing in this part of the world, car clubs, too, seem to go "dormant" during the winter months. Relax, it is only nature's way of surviving these "Mini-Ice-Ages" we suffer annually. The advent of Spring, however, brings out even those considered to be "terminal couch potatoes" and for those of our persuasion (aka goat heads), G.T.O.'s are regaining their priority over B.T.U.'s once again.

Yes, it has undoubtedly been a long, cold winter here in Ohio, but, alas, Spring is here and that means our Annual Spring Show is nearing. For those of you who have never participated in this event, by all means, discover what you've been missing. You won't regret it!!!!!!

Whether you have a "magazine feature car" or a beater, there is surely something of interest for you at the Spring Show. After all, how many opportunities do we get to view all types of all years of our favorite muscle car along with rows or parts and accessories jut for the asking. (well, almost). But that is only the half of it. The other half is, of course, the social aspect of the club. Renewing old friendships and discovering new ones. With all the bartering, bragging and "bench racing" that takes place at these events, I'm sure we all have something to offer as well as something to gain.

Anyway, I guess the point is get involved!!!!!! This club consists of a good bunch of people with much to share, and what isn't shared is wasted. As for those of you have participated in previous shows, I imagine that you are as "reved up" as myself at first mention of this event. But reving up. is step one. Now for step two, getting it in gear! Seriously, we need fo finalize the details concerning the Show, as organization goes hand in hand with success in such events. So please contact any officer or show coordinator concerning any interest you may have in helping'with the show. Those of you planning on "Showing or Swapping", be sure to get the proper forms completed and in to show officials as soon as possible.

Donna

"MEMBER PROFILE"

This months member profile is Estell Caudill of Grove City Ohio. Estell is the 2nd owner of any original '66 GTO. The car is complete with no rust and has never been wrecked. It is motero red hardtop with red interior. Its complete with a 4bbl automatic with few options. Estell is currently going thru a complete overhaul on the engine which has 118,000 original miles on it. The Goat was purchased new at Myrtle Motors in New York. Estell has all the paperwork from the car and even has the original warranty card. He also has all the maintance records on the car for its entire life.

Estell is a supervisor at the Columbus Anhueser Busch, Brewery. He is responsible for running the fermenting cellar's which means in our language "making good beer". His hobbies include cars and fast women!!!!

It seems Estell has also owned several other Muscle Cars such as a '69 440 Dodge Dart, '69 Chevelle SS 396, '71 Chevy Nova SS 350 and a '69 Mustang Boss 302.

Estell only regret now is that he works seven days a week and has no time to work or play with his car the way he would like to.

Subject: CYLINDER HEAD IDENTIFICATION - 1967-1/2 AND 1968 ENGINES

Some 1967-1/2 V-8, 400 cu. in. engines incorporated the use of a new cylinder head. This head may be identified in the same manner as other 1967 heads by noting the number code cast in the head at the center exhaust port. The new head and its corresponding engine applications are shown on the attached page. Cylinder heads for all other 1967 engines may be identified by referring to the first page, 2nd edition, of the 1967 Service Craftsman News.

Cylinder heads for 1968 V-8 engines may be identified in the same manner as 1967 heads. The casting number is located on the center exhaust port, but the cast stamp consists of only two (2) digits as compared to three (3) digits on 1967 heads.

Cylinder heads on 1968 6-cylinder engines can be identified by a seven (7) digit production number cast in the head just below the rocker arm cover sealing edge. Since the production number is inside the rocker arm cover, the cover will have to be removed before the number can be seen.

The attached tables show the identification codes for the 1967-1/2 - 1968 V-8 engines and the production numbers for the 1968 6-cylinder engines.

1967-1/2 ENGINES

<u>ENGINE</u>	<u>ENGINE CODE</u>	<u>COMPRESSION RATIO</u>	<u>IDENTIFICATION NUMBER</u>
Pontiac 400	WY, XT, XU, XV, XW, XX	10.5	061

1968 ENGINES

Tempest & Firebird 6-Cyl.	ZK, ZN	9.0	9791194*
Temp. & F/B 6-Cyl.	ZD, ZE	10.5	9791195*
Temp. & F/B 350	WC, WP, YU, YN	9.2	17
Temp. & F/B 350 HO	WK, WR, YM, YP	10.5	18
Temp. 400 GTO (Low Comp)	XM	8.6	14
Temp. 400 GTO & F/B 400	WZ, WQ, WS, WT, YS, YT, YW, YZ	10.75	62
Temp. 400 GTO & F/B 400 Ram Air	WI, XN, XP, XS	10.75	31
Pontiac 400 (Low Comp)	YA	8.6	14
Pontiac 400	WA, WB, YC, YE	10.5	15
Pontiac 400 G.P.	XZ, XH	10.5	16
Pontiac 428	WG, YH	10.5	16
Pontiac 428 HO	WJ, YK	10.75	62

*Reference to the parts catalog should be made when ordering cylinder heads as the identification numbers on 6-cylinders are NOT part numbers.

April 88

March 9, 1988 Meeting

March meeting of GTOACO was called to order by Prez Donna Landis at the Bonanza Restaurant. Secretary and Treasurer gave their reports.

Richard Whaley stated there are 56 members who have reregistered. List of members who have not rejoined was given to Vice-President Jim Evans who will contact them to see if there is a problem or concern that caused them not to rejoin.

Donna brought up the subject of Tech Sessions again. It still seems there is not much interest in doing these. If any member would like to see these sessions happen please call Jeff Ruffer at 855-2791.

Spring Show: Jeff Inskeep stated that there is advertising in Hemmings and one coming out in the Legend. Nick Anspach has contacted all persons for judging. He has assistants and back up people lined up. Jim Evans has contacted many people who stated that they will help with whatever is needed. Donna has food lined up pop, chips, candy bars etc. Richard Whaley has been in contact with Rick Ross at Dave Gill Pontiac. They have given their ok for a disc jockey to play live music. Richard will also check with Rick Ross about their advertising to see how many weeks in advance they are planning on advertising the show. The members in attendance decided to have the 50/50 drawing requirements changed. You don't have to be in attendance to win.

Nick Anspach received a letter from Jim Wagner. He has a hour long color slide presentation that he would like to show us. Either at our spring show or at anytime. His fee for this is that we pay for his accomodations and travel expenses. It was decided that we needed more information concerning where he would want to stay, from where he would be travelling etc. Nick is to contact him for more information.

February 25 board meeting at Jeff Ruffer's home. Board members decided to send out a letter to all people who stated they would be at the Christmas Party and did not show as the club had to pick up the expense's of their meals. Richard Whaley is to check into prices of name tags done in red for officers and board members for the spring show. This way everyone attending the show will know who the officers are if there are any questions. They also decided to provide plastic name tags for everyone working, showing cars etc. Donna Landis is to do a letter to pump up everyone in the club to come together and make our club great.

Any information, articles, parts listing, cars for sale are to be into Jeff Inskeep no later than 2 weeks after the monthly meeting. Anyone who has any information on GTO's or who would like to share their experiences with their GTO's please send them to Jeff Inskeep typed if possible.

Ron Landis brought up suggestions that our club go to Columbus Zoo and Wyandot Lake. Not to have a meeting but for a whole lot of fun. More on this later.

Award this month goes to Ed Garlitz who came from Hillsboro, Ohio for our meeting.

50/50 drawing was handled by Candace Whaley. This months winner again for the second month in a row is Logan Inskeep. Once again he stated to dad I want to go buy something maybe a GTO model.

This brought to a end our meeting. Hope to see more of you at our next meeting.
