GTO Assoc of Central Ohio June 12, 1997

Meeting was called to order by Jim Evans. Treasurer's report was given.

Plant Tour: It has been mentioned to tour the can factory where Jim Evans works. Jim suggested going to plant first and then on to a cruise. Jim ask for show of hands and didn't receive much response. It was tabled again.

Show flyers were on hand and had to be folded and put into envelopes. It was the highlight of night to watch Donna shuck envelopes which is a talent so we could stuff them. Thanks to Richard, Monetta and Jeff for stuffing envelopes. Jim will mail show flyers to members not in attendance as they did not make the Paw Prints.

Winners Circle: Bill Hartley brought up about the winners circle His feelings are that if you have the best car and you continue to do the work to keep it the best car you should not be penalized by not being allowed to show it each year. It should be a desire to beat this car. Jeff, Kevin, Steve feel it should be left as is. It has not proven to hurt or help the show. Vote was taken winners circle will be kept as is.

Nationals 2000: Dan Gregory presented info. He has a list of lots of places for people to visit, he has talked to the Holiday Inn and got a reasonable room rate locked in already. National Trails has come around with a reasonable rate. Jim & Dan will present this info at the 1997 Nationals. Dan you looked great nice haircut.

Walkie Talkies: Jim asked about purchasing new walkie talkies for the club or if we even needed them. Various persons volunteered to check on these but with time short before the show Kevin Johnston was given the ok to spend up to \$800 for 4 walkie talkies.

Kevin Landis is doing the club display at the 1997 nationals. So everyone knows he has the two photo albums and banner.

Picnic at the Whaley's September 7th 1:00. Club supplies drinks, meat. Members to bring covered dish and or dessert. RSVP by August 25th to 837-4372.

Tim Heppner has a 3 car garage for Rent.

Respectfully submitted:

Nancy Whaley
GTOACO Secretary

NEW FOR '97
The NAPA Cruiser Stage
ENTERTAINMENT ALL DAY—BOTH DAYS!

RAIN OR SHINE

August 8 & 9, 1997

Civic Center Drive & Bicentennial Park • Downtown Columbus, Ohio

SCHEDULE OF EVENTS ON THE NAPA CRUISER STAGE

Friday, August 8

12 Noon - 5:30 pm
 Cruisin' Around Downtown
 4:00 pm - 11:30 pm
 Open Cruise In
 \$5.00 Entry fee to benefit P.L.A.Y.
 (Private Leisure Assistance for Youth).

Gary Lewis and the Playboys

Saturday, August 9

8:00 am - 12 Noon
 Registration - Show 'n Shine
 12 Noon
 Competition Begins
 2:00 - 2:30 pm
 Cruise In Prize Giveaways
 5:30 - 7:00 pm
 Trophy and Award Presentations
 8:30 - 10:30 pm

Cruisin' on the Riverfront Registration Form

August 8 & 9, 1997, Civic Center Drive & Bicentennial Park, Downtown Columbus, Ohio

Name _____ Home Phone # _____
 Address _____ City _____ State _____ ZIP _____
 Truck Car Year _____ Make _____ Model _____ Style _____
 Club Affiliation _____ Nickname on Nametag _____ 1996 Entrant? Yes No

Liability: Entrants and participants by execution of this entry form release and discharge the City of Columbus and Midwest Classic Car and Mini-Truck Promotions, their officers, directors, employees, agents, representatives, volunteers and anyone else connected with the presentation of Cruisin' on the Riverfront from any and all known or unknown damages, injuries, losses, judgements and/or claims from any causes whatsoever that may be suffered by the entrant or participants to his or her person or property.

All pre-registrations will receive a Dash Plaque and a Goodie Bag. Register Now!

Vehicle Registration Fees: _____ Friday Evening Only - \$5.00 _____ Saturday Competition - \$15.00 Includes free admission on Friday evening

REGISTER FOR SATURDAY COMPETITION BY JULY 15 AND RECEIVE A FREE CRUISIN' T-SHIRT. Size _____ (XXL - Add \$1.00)

Please mail this registration form with a check payable to:

Cruisin' on the Riverfront - 923 East Broad St. - Columbus, OH 43205-1101

"COMPETITION" ENGINE SPECIFICATIONS

Bearings listed here are especially made for "competition" engines which should not be used for ordinary driving. Such a vehicle would be towed to and from the race course or drag strip.

The majority are high-performance Federal-Mogul ALCAD* bearings which have higher wall eccentricity to compensate for connecting-rod distortion and slightly extra crush height for better fit. Their steel backs are especially alloyed to provide added strength and resist bearing flexure during peak loads.

Adding it all up Federal-Mogul aluminum-alloy ALCAD bearings offer a combination of properties that cannot be duplicated by other types of bearings.

Their four separate metallic layers provide the highest fatigue strength and greatest load capacity, as well as good conformability, during break-in. Federal-Mogul ALCAD aluminum-alloy bearings are 250% stronger than babbit, 92% stronger than tin-aluminum, 45% stronger than overlaid copper-alloy bearings.

With these engines, the oil clearances are greater than standard specifications call for. In some few cases the additional clearance is obtained by reducing the shaft size slightly, from "standard". The desired oil clearance should be the "mean", or slightly above the middle of the span shown, but in no case less than .0025".

*Trade-Mark of Federal-Mogul Corporation

"STREET" ENGINE SPECIFICATIONS

Bearings listed here are "original equipment" specifications in the majority of cases. In some cases, Federal-Mogul ALCAD* aluminum-alloy bearings are specified—with higher wall eccentricity to compensate for connecting-rod bore stretch, and with slightly extra crush height for better fit. The steel backs of these Federal-Mogul bearings are especially alloyed to provide added strength and resist bearing flexure under peak loads.

The oil clearances indicated are the smallest and largest of the span, taking into account the tolerances of shaft, housing and bearing. We suggest the "mean" or center of this spread as the ideal, but under no conditions, less than .0015".

The intent is to give you the best possible performance and service from your "street" engine. Oil clearances recommended here will allow the engine to run smoothly and make your car usable for normal driving.
